PERSONAL STATEMENT

I'm a Developer, Designer & Freelancer from Rotterdam (The Netherlands) currently based in Rotterdam. I love everything that has to do with developing solutions and designing (logo's, banners etc.)

I'm a person who independently completes all its tasks and keeps a good overview of all adjustments that has to be done. The writing down of other possibilities for different problems is standard. I work oriented and keep everyone informed when making changes and my skills / properties are among others to learn and adapt to new changes in society and online
